

# 1

Learning about careers and widening your understanding of the opportunities available to you when you leave school is something you can start to do yourself. We would like you to try the activities below and see what you can find out.

To help you access a wide range of information go on the Careers section of your school website and use the menu to find

**eCLIPS** The password is **MAT Careers**

## Year 7

Thinking about what you would like to do for your career starts here!

Visit the website

[www.launchyourcareer.com](http://www.launchyourcareer.com)

This website draws links between your school subjects and jobs, shows what is possible in work, and encourages you to discover opportunities you may not have known about before.

1. Take the quiz and find out all about yourself. Your result may look like this. Note down the character strengths you have.

You're a:  
**Eagle**

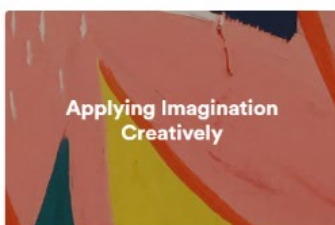

3% of the UK population are Eagles.

Eagles are symbols of power, leadership and strength. Often soaring high to generate new ideas and new ways to do things. Others are often willing to follow Eagles due to their good ideas and their determination to make them happen.

2. Next work through the section on your interests.

## What are your interests?

Let's discover what is important to you and how we can apply that to your future career.

3. Next identify a range of carers you may be interested in and find out by following the links what these careers may involve.
4. Choose a career you DO NOT know much about and record down some of the key areas this career involves working on.
5. Select your favourite career and produce a fact sheet which explains what this career and related jobs are all about.
6. Bring this fact sheet back into school when you return and show your form tutor.
