

1

Learning about careers and widening your understanding of the opportunities available to you when you leave school is something you can start to do yourself. We would like you to try the activities below and see what you can find out.

To help you access a wide range of information go on the Careers section of your school website and use the menu to find

Year 9

Visit this website <https://icould.com/>

Choose 3 of your **GCSE subjects** and choose – **explore careers**—click on subjects and choose **two** stories from people who have careers linked to your subject. Watch the videos and read the transcript.

When you have watched the videos you need to choose the most interesting career you have watched and produce a short fact sheet about it.

You must include:

1. The name of the career
2. The most important skills this career requires
3. The qualifications you need to do this career
4. Employment Status
5. Average salary
6. Average weekly hours worked
7. Future employment trends

Visit www.launchmycareer.com if you now want to take a personality quiz which will enable you to focus on careers that suit your personality and preferences.
